

ADSE3200 Visualization portfolio assessment part 3 of 3.

The individual assignment.

Deadline and important information:

This individual assignment is the third part of the portfolio assessment in ADSE3200 Visualization. This assignment must be solved individually. The assignment must be delivered in Inspira.

Be careful not to plagiarize. To avoid plagiarizing it is important to reference your sources in the text and include all references in the reference list using APA 7 referencing. The submitted report will be subject to [plagiarism](#) checking.

The deadline for the individual assignment is 31.05.2024 at 12:00 (noon/midday) in Inspira.

If you experience problems during submission, please contact the examination office BEFORE the deadline has expired.

The assignment:

In this assignment you are asked to do an academic reflection paper on **one** of the solutions your group did for group assignment 2.

You must choose to focus your reflection either on the solution for a small screen *or* on the solution for a large screen.

You must include a brief overview (max. 1 paragraph of no more than 7-8 sentences) of the solution you choose for your reflection and a link to the relevant prototype.

You must focus your reflection on **one** of the following topics:

- Design choices and methods the group used for the solution.
- Visualisation techniques used in the solution.
- What the group did to ensure the solution is accessible for as broad a user group as possible.

You must use references to relevant literature, both in the syllabus and other relevant literature, using APA 7 style referencing.

You can find links to useful resources in Canvas (in module Writing workshop / Skrivekurs) on how to structure and write an academic reflection paper, and how to reference using APA 7 style.

Structure and what to include in the reflection paper:

Please include:

- Front page with
 - your name and student ID number (e.g., s123456)
 - Word count (excluding title/front page, list of contents, captions for tables and figures, list of references, appendices)
- Contents (with page numbers, preferably clickable).
- Reference list.

Please structure the assignment by:

- Using chapter numbering and also number the subsections (if applicable).
- Using page numbers.

Formal requirements to the assignment:

- 700-800 words excluding title/front page, list of contents, captions for tables and figures, list of references, appendices.
- Note that if the report deviates by more than 10% from the word count it will have a negative impact on the overall grade.
- Use references in the text and include all references in the reference list using APA 7 style referencing.
- The report must be delivered in PDF format on Inspira.

Assessment:

The submitted reflection paper for this assignment will be assessed with reference to the learning outcomes presented in the ADSE3200 course description. The report will be assessed by how well the student displays knowledge on relevant learning outcomes through the reflection, how well the student describes/explains concepts, and how the student reflects on the chosen topic. The use of citations and references in the report and whether the report meets the given formal requirements will also be part of the assessment.
